need and whose physical or other conditions or disabilities associated with their disease make inadvisable their return immediately to their former activities of regular employment, is hereby declared to be a special matter of the state's concern and a necessity in promoting the public welfare. To provide medical and other supplemental care to such persons in order to prevent their further breakdown after sanatorium care, a state-wide program of after-care for tuberculous patients discharged from county and state sanatoria is hereby established. (Act Apr. 28, 1941, c. 499, §1.)

**5388-4. "Medical and supplemental care," described.**—When used in this act the term:

(a) "Medical and supplemental care" shall mean the services rendered to such discharged tuberculous patients, as defined in Section 1 of this act. The sum herein appropriated shall be used only for the expenses incurred in travel to and from the sanatoria. This type of medical care shall be determined in accordance with rules and regulations established by the state agency, which shall require an examination at the sanatoria at such times as the superintendent of such sanatoria shall determine, provided, however, that in event a doctor of medicine selected by the patient certifies that preliminary examination indicates need for emergency examination, not otherwise ordered by the medical officer in charge of the sanatoria, such examination shall be ordered as prescribed by the rules and regulations established. (Act Apr. 28, 1941, c. 499, §2.)

**5388-5. State agency—Powers and duties.**—The state agency shall:

(a) Supervise the administration of medical and supplemental care under the provisions of this act.

(b) Formulate and adopt all necessary rules and regulations for carrying out and enforcing the provisions of this act to the end that medical and supplemental care for patients coming within the provisions of this act may be administered uniformly throughout the state.

(c) Prescribe the form of, print, and supply to the various county agencies throughout the state, blanks, reports, and such other forms and documents as it may deem necessary or advisable.

(d) Prescribe and maintain a uniform system of fiscal reporting for, and accounting of, all expenditures under this act.

(e) Prepare and print within a reasonable time after the close of each fiscal year a full and complete report for said year giving an account of the operation of this act, the expenditure of all funds thereunder, and adequate statistical data relative to the patients benefiting by the provisions of this act and the nature and type of the treatment given thereunder.

(f) Reimburse to each county agency making expenditures under and pursuant to the provisions of this act such sums, quarterly, as said county agencies may have expended pursuant to the rules and procedures established hereunder by the state agency. Reimbursement shall be made upon the basis of such certification of expenditures as shall be required from the county agency by the state agency. (Act Apr. 28, 1941, c. 499, §3.)

**5388-6. Consultation with sanatoria superintendents.**—In promulgating rules and regulations covering

the granting of medical and supplemental care to patients and in setting minimum standards therefore, the state agency shall have due regard for, and shall consult with, the superintendents of the county tuberculosis sanatoria and the state tuberculosis sanatorium. (Act Apr. 28, 1941, c. 499, §4.)

**5388-7. County agency—Duties and powers.**—The county agency shall:

(a) Pursuant to the rules, regulations and standards established by the state agency, inquire into and determine the amount of medical and supplemental care needed by each patient coming within the purview of this act and who is a resident of the county concerned for the purposes of this act.

(b) Prepare and submit promptly to the state agency all applications, forms, and fiscal reports established and required by the state agency pursuant to the provisions of this act.

(c) Pay in the first instance such sums for medical and supplemental care as are found necessary under the provisions of this act. It is specifically provided hereby that such payments of medical and supplemental care are no part of such grants of relief or assistance as are found necessary for the usual care of the patient, all payments provided for herein being over and above and in addition to such regular grants of relief and assistance.

(d) Report to the state agency such expenditures for medical and supplemental care as are made by the county agency pursuant to the provisions of this act and receive reimbursement therefore quarterly from the state agency.

(e) Prepare and submit such statistical and fiscal reports as the state agency may require hereunder. (Act Apr. 28, 1941, c. 499, §5.)

**5388-8. Persons to whom act applies.**—Medical and supplemental care under the provisions of this act may be granted to a discharged tuberculous patient who:

(a) Has a tuberculous condition within the definitions established by the state agency pursuant to the provisions of this act.

(b) Has resided in the state of Minnesota and in the county one year prior to the time of entrance into the tuberculosis sanatorium. (Act Apr. 28, 1941, c. 499, §6.)

**5388-9. Funds not transferable.**—No funds granted under this act for medical and supplemental care shall be transferable or assignable at law or in equity and must be used for the sole purpose of payment for medical and supplemental care as defined in this act. (Act Apr. 28, 1941, c. 499, §7.)

For each animal slaughtered because of tuberculosis, paratuberculosis, glanders, or Bang's disease, the value of the net salvage of the carcass shall be deducted from the appraised value of the living animal; two-thirds of the remainder shall be paid to the owner by the state, except that in all cases where the federal bureau of animal industry compensates the owner for such animal, in whole or in part, then the amount of such compensation so received from the federal government shall be deducted from the amount of indemnity payable by the state; provided that in no case shall any payment be more than \$15.00 for grade females or more than \$30.00 for any purebred animal, and that no payment shall be made unless the owner has complied with all lawful rules and regulations of the board; and provided further that two-thirds of the appraised value of any horse slaughtered as provided herein shall be paid to the owner thereof by the state after disposal of the carcass of said horse as directed by the board.
